Registration is free.

The course is free and open to anyone wishing to learn more about wildfire home assessments.

What to Expect

Day 1 (classroom session)

You'll learn the fundamentals of assessing a home and working with residents to make their property more resilient to wildfires.

Day 2 (hands-on training)

Put it into practice! You'll evaluate a home in the community to gain a better understanding of a home assessment and put classroom knowledge into action.

Provisions

For \$15 per attendee, lunch will be provided both days by the Central Calaveras Fire Fighters Association. Attendees can bring their own lunches if preferred.

About the Training

The Wildland Fire Assessment Program (WFAP) will teach you how to work-side-by-side with homeowners to identify threats around their property that may be susceptible to wildfires. The WFAP is a joint effort between the National Volunteer Fire Council and the U.S. Forest Service to prepare fire department members with the necessary information, skills, and resources to conduct home safety assessments and provide residents with recommendations as to how to make their homes more fire adapted in the wildland-urban interface. Learn more about WFAP at www.nvfc.org/wfap.
